Note that LDC has the following criteria when considering grievances:

- Grievances are considered at a Group level, so grievances carried out at one mill/plantation incur an evaluation to the group as a whole
- For suppliers who are removed from an LDC approved supplier list, this applies to both buy **and** sell physical transactions
- For suppliers removed from an LDC approved supplier applies to all commodities LDC is involved in. There have been several cases where a different LDC product line has ceased trading with a supplier due to the supplier's poor performance in palm.
