

H1 - 2021 Supply Chain Traceability

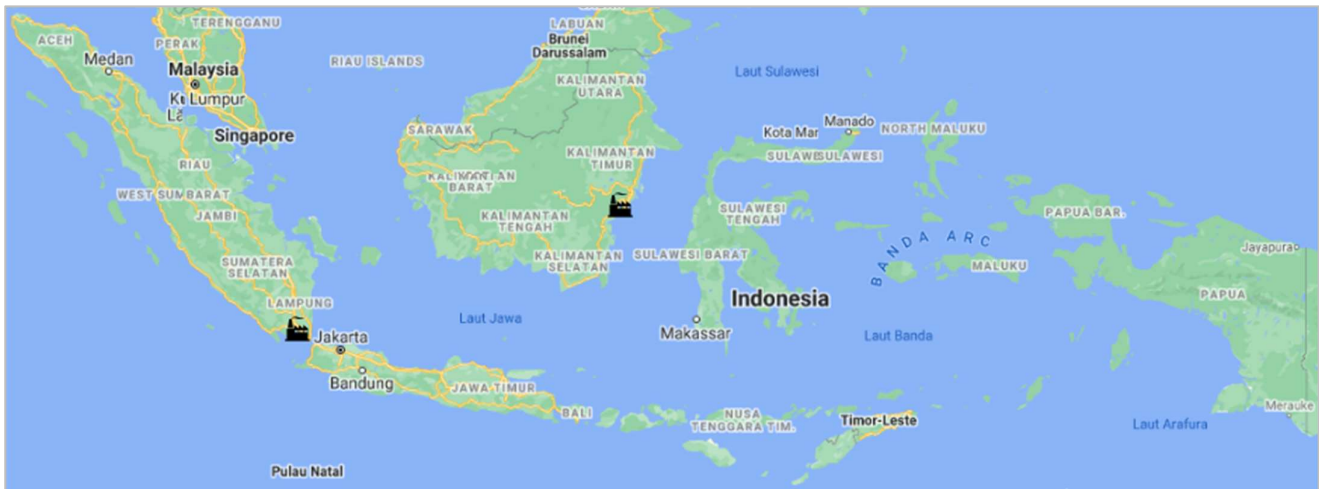

This report provides traceability information on LDC's global palm operations, for the first half of 2021. This includes LDC Indonesia refineries, Singapore commercial trading operations, LDC India and LDC packaging business.

Mills supplying the LDC Indonesia refineries are considered direct, given our direct sourcing relations with oil palm mills in producing countries. The rest are sourced through our trading partners and considered indirect.

NDPE IRF profiles of our two Indonesia refineries are disclosed. Lists of trading partners are also included.

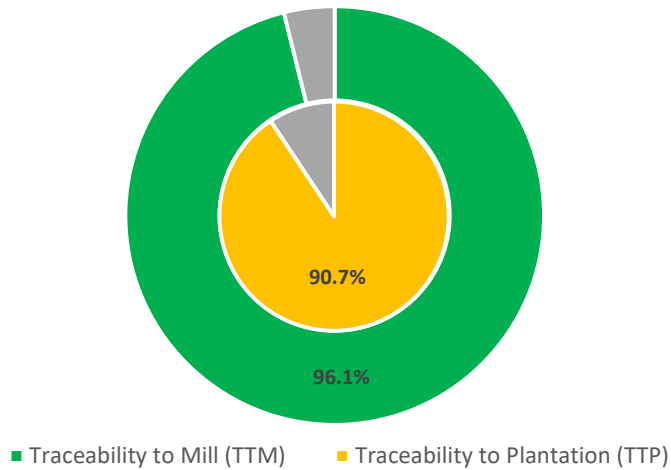

The data is based on self-declaration information or public dashboards and is gathered bi-annually.

Best efforts are made to ensure accuracy.
